

LOVESEAT

JAKE PHIPPS

WWW.JAKEPHIPPS.COM

It was the genteel Victorians who originally popularised the loveseat. Courting couples could whisper sweet nothings whilst remaining seated in a state of chaste restraint. Although we might laugh at such primness and exaggerated propriety, the loveseat remains a powerful symbol of love and romance. The seat's form suggests the duality of a loving and successful partnership: fundamentally opposed, yet with complimentary principles of balance and unity. Facing in opposite directions, a couple can share a conversation, with their different perspectives providing a more complete outlook on the world around them.

NAME	Loveseat
WEIGHT	40kg
DIMENSIONS	L125cm x D50cm x H50cm
MATERIAL	Cedar
LEAD TIME	8 - 12 weeks
