

# STELLAR Oval Low Table

---

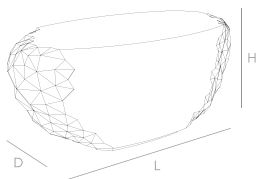

JAKE PHIPPS

[WWW.JAKEPHIPPS.COM](http://WWW.JAKEPHIPPS.COM)

Part of the award winning Stellar Collection - the Stellar Oval Low Table is inspired by the precious qualities of naturally forming amethyst geodes and machine cut diamond. The Large expansive surfaces on the table are in stark contrast to the turbulent seam of individually sized and angled mirrored sections that run through them.

This change in surface creates an optical dispersion that breaks down the light and the surrounding environment, delivering each piece to the eye as one sparkling entity. As the ambience of the environment changes throughout the day, so too does the colour and lustre of the table, creating an ever changing focal point to a room.

NAME	STELLAR Oval Low Table
WEIGHT	25kg
DIMENSIONS	L120cm x D60cm x H40cm
MATERIAL	Super Mirror Polished Steel
BESPOKE	Bespoke sizes available
LEAD TIME	8 - 12 weeks
